

## Pakistan International School Azizia Jeddah Cambridge Curriculum Section (CCS)

### CAMBRIDGE KSA EDITION BOOKS FOR AY 2026-27

Dear Parents,

Greetings from the Cambridge Curriculum Section.

We would like to share an important update regarding the use of learning resources for the academic year 2026/27 onwards in the Kingdom of Saudi Arabia.

Cambridge resources are being transitioned to **KSA-specific editions**, developed to meet local regulatory requirements while maintaining full alignment with Cambridge International curricula. These changes are part of a national compliance framework and will directly impact the books and materials used by all Cambridge schools in the Kingdom.

#### Key points for your attention:

- From **academic year 2026/27**, only **KSA edition Cambridge textbooks and resources** will be permitted for classroom use in Saudi Arabia.
- International editions, whether purchased locally or online, will no longer be allowed for use in schools under the new regulatory guidelines.
- KSA editions will be available **only through authorised distributors within Saudi Arabia** and will not be sold through international retailers.
- Previously used international editions will no longer be valid for classroom use once the transition is complete. (Refer to the Grade wise booklist already shared)

Your cooperation and understanding are highly appreciated as we align with these updated requirements while continuing to provide high-quality Cambridge education for our students.

Should you require any clarification, please feel free to contact the school administration.

We thank you for your continued trust, partnership and support.

Warm regards,

Principal Cambridge Curriculum Section (Academics)

Pakistan International School, Azizia Jeddah
